

Trinidad & Tobago Hair & Beauty Trade Show

From page 49

Special Guest

Mr. Clem Lue Yet, the Master Hairweave artist will be a special guest at the trade show. He plans to exhibit his Hair Extensions with Micro Cylinders (no Glue) Wrap Net Weave System. Clem is making special guest appearances on the Grand Ballroom Stage at selected times during the three-day exhibition.

Two other technicians, one local and the other, from the Hairdressers Association of St. Lucia will be demonstrating their product lines in the San Fernando and Teak Rooms.

Products which do not cater to the type and texture have a tendency to leave hair without that natural gloss and sheen. What better opportunity to learn about your hair than getting to the Crown Plaza the week-end from May 5-7th to avail yourselves of learning from professionals what is necessary to have "healthy hair" at all times.

If you are swimming, in the pool often, it is necessary to take extra care. Come and See the experts in action, working magic with hair and advising on basic skin care needs.

At the Trinidad and Tobago Hair & Beauty Trade show there will be new products launch, a U.S. Technical team from New York with Design Essentials ready to show the latest techniques to hairdressers thereby helping them to sharpen their professional skills as well as introducing them to the new product lines in the Beauty Industry.

Attending this Trade show also benefits the professionals by providing a forum to meet special source supply contacts offering show specials on salon supplies, Mother's Day offers, as well as affording them the opportunity to communicate on a one to one basis with their prime suppliers.

Any questions on product performance can be addressed for better product usage and thereby achieving the desired end result. For those interested in beauty culture, attending this exhibition will give them the opportunity of learning more about the business, providing them with the option of getting involved in an industry that could provide an opportunity to be self-employed.

Women, this is what empowerment is all about. It is also a great

opportunity for the client to find out about what "after care" means and how important it is to take care of your "crowning glory" after leaving the Salon.

The show's Producer and Director Monica E. Headley with the Organizing Committee have always concentrated on the educational aspect of the Show. Seminars in the San Fernando and Teak Room will be strictly for the benefit of hairdressers and students of Cosmetology attending the 3-day show.

The guest artists will be :

Clem Lue Yat of New York;
W.L. Spencer of St. Croix, V.I.
Ms. Regenia Marble of New York;
Ms Cecelia Fitz-Charlery of St. Lucia;
Terrence Aleong & Team of T&T
Kirk Thomas of T&T;
U.S. Technical Team, of N.Y.
